Editor's Note

The staff of the 1945 KALEIDOSCOPE published an excellent book in spite of war time conditions. It was a challenge to us this year. Everyone seemed to want a yearbook, a good one, one with lots of pictures. For this reason, and because of various increases in prices, the price of the book was raised. We have tried to put as much of this as possible into pictures, but the actual size of the yearbook could not be increased because of government regulations. Now the 1946 KALEIDOSCOPE is yours. If you are pleased the work of the staff has been successful.

VALETA CUTTING.

Acknowledgment

To publish a yearbook requires the work and cooperation of many people. Of course the staff does, perhaps, the largest part of this, but the Sophomore Try-outs, too, are a very important link. They do most of the gathering of material, running around to see heads of organizations and also the faculty. From these tryouts the new staff is chosen.

For the covers, that give the important first impression, we thank the S. K. Smith Co.; for the actual designing of the book and for the engraving, thanks go to the Howard Wesson Co. as a whole, and more particularly to Mr. Frank E. Gleason, and Miss Barbara Drury; for help and advice in printing we thank the Free Press Printing Co., and Mr. Harry M. Blodgett.

Everyone likes pictures so photography is all-important in the yearbook. For the largest part of the pictures we thank Mr. Andrew Phillips of Gherin's Galleries. Of great help, too, were: Philip Briggs, Howard Fink, A.S., and Robert Terrill.

We also thank both students and faculty for their cooperation and understanding.
